All Balloons

It's only five miles to heaven
With all the usual stops
I took the right directions
And I'm farther than I was at
the start

And you keep telling me the
story about some killer bees
Seems I've gone crazy and
they're trying to kill everybody
and me

So whatever comes will come
And maybe we're all balloons
full of air
And the reason we're deflatin'
is to remind us that the ground
is air

La la la la la la
La la la la la la
La la la

Only the craziest of the bees
know the branches like you do
Sometimes it's hard to tell the
difference between the honey
and the glare
This split direction is
eventually gonna tear us all
apart
You know you're going
nowhere
But hey at least you know
where you are

So whatever comes will come
And maybe we're all balloons
full of air
And the reason we're deflatin'
is to remind us that the ground
is air

La la la la la la
La la la la la la
La la la

Way up in this sort of air
Way up in this sort of air

So whatever comes will come
And maybe we're all balloons
full of air
And the reason we're deflatin'
is to remind us that the ground
is air

La la la la la la
La la la la la la
La la la

It's only five miles to heaven
With all the usual stops
I took the right directions

Amazing

I feel sweet, do you feel
sweet?
It's amazing
I have no skin and I feel
everything
It's amazing

I feel good when you feel
good
I knew I would and it's
amazing

I've wanted this for so long
Now the deed has been done
We shall rise with the sun
And spend our time as one

Now there is no sin in
anything
And it's amazing
I love life, I hope you do too
'Cause I love everything, it's
all amazing

I feel you, do you feel you?
I understand when they say
we're born again
'Cause I feel born again
I'm born again and it's
amazing

And it's the best thing and it's
glorious
It's life changing
This feeling is amazing

It's the best thing, it's glorious
It's life changing, this feeling

This feeling, oh Lord
This feeling, it's amazing
It's in the stars, in the sun
It's everywhere, in everyone

And it will be every day
From now on, from now on
We are one and it's amazing
It's in the stars

In the sun
It's everywhere, in everyone
And it will be every day
From now on, from now on
We are one and it's amazing

It's in the stars, in the sun
It's everywhere, in everyone
And it will be every day
From now on, from now on
We are one and it's amazing

Astronauts

You float like a baby
Trying to escape this
Covered in tar

But every recording
You keep distorting
Like an astronaut

It's funny old world
Full of headaches in turn

So whenever you need space
I guess it's okay
When you're floating away
To feel nothing at all
We can be astronauts
If you want to get out of here

You float like a baby
Looking for safety
Somewhere on mars

But if I'm mistaken
Your body's in England
But your head's in the stars

It's funny old world
Full of headaches in turn

So whenever you need space
I guess it's okay
When you're floating away
To feel nothing at all
We can be astronauts
If you want to get out of here

We can get out of here
We can get out of here

We can be astronauts
We can be astronauts

It's funny old world
Full of headaches in turn

So whenever you need space
I guess it's okay (ay ay ay)
When you're floating away (ay
ay ay)
To feel nothing at all
We can be astronauts
If you want to get out of here

We can get out of here
We can get out of here

We can be astronauts
We can be astronauts

Chocolate

I'm just sitting in the clouds
today
I hope to God it doesn't rain
'Cause everyone got problems
and I know I've got mine
But at least I've got the stars
with me

Then I fall down, I just fall now

Can I have your attention
please?
We're like chocolate in the sun
And in this heat we are
melting into everyone

She doesn't have the heart to
say
That she hasn't got the heart
to stay
She's got her problems so I
stay out the way
I'll be sitting in my cloud today

Can I have your attention
please?
We're like chocolate in the sun
And in this heat we are
melting into everyone

Can I have your attention
please?
We're like chocolate in the sun
And in this heat we are
melting into

Can I have your attention
please?
We're like chocolate in the sun
And in this heat we are
melting into everyone

I'm just sitting in the clouds
today
I hope to God it doesn't rain
'Cause everyone got problems
and I know I've got mine

Chosen One

You might not be the chosen one
Still you wait for your time to come
But your faith has taken a tumble
And your pride is shaken and humble, now

You must know nothing's set in stone
You must know that you're not alone

You try not to ever hate
But can't help but overcompensate
As a smile says everything's rosy
Maybe ten percent then it's mostly, yeah

You must know nothing's set in stone
You must know that you're not alone

You dream of another world
Where the guy always gets a girl
But your life is not like the movies
You can tune your way to hero, should we?

Sometime for the underdog
We should take some time for the underdog

The calm ones will get it done
And it's the brave that will overcome
Should you listen to your voices
When they lie and give you no more choices?

Frame what you're gonna do
In this phase that you're going through

Givin' up

(Givin' up) (x4)

I've woken up to the radio
I've hardly had any sleep
And the song that plays
Will stay with me all day
And I hate it

Over and over again
Another one of those crazy days
And the same old same old
may be hard to change
But I'm ready

All the battles (Givin' up)
I want to win (Givin' up)
Ain't no battle (Givin' up)
But givin' in (Givin' up)
It's so hard (Givin' up)
It's so hard to do (It's hard to do)

So hard (Givin' up)
It's hard to do

I've realized I was wrong
Stuck in traffic on my way home
And the song still plays
All the crazy days will go on
When I'm gone
All the battles (Givin' up)
I want to win (Givin' up)
Nothin' matters (Givin' up)

But givin' in (Givin' up)
It's so hard (Givin' up)
It's so hard to do (It's hard to do)
(Givin' up)
It's hard to do

We're one step forward and two steps back
I'm going nowhere fast

All the battles
I want to win
Nothin' matters
But givin' in (x2)

It's so hard
So hard to do
It's so hard

All the battles
I want to win
Nothin' matters
But givin' in

It's so hard
It's so hard to do
It's so hard to do

(It's so hard)
It's hard to do

Hometime

Picture me in a boat on the sea
Five-fingered leaves keep covering me
Don't you know that the big Ferris wheel is eventually stalling?

I see you, I see the animals too
Especially those that are out at the zoo
They look just like me and a lot like everybody

And if we're lucky, we might see the end of the day completely

Collect all your things 'cause it's hometime
Come on, collect all your things 'cause it's hometime

People walkin' on top of the sea
But this time, it doesn't matter to me
Because I've got these magical seeds and the trees are still growing

Stone throwing, I've got nothing to do
Only hope I got the message to you
Because if we're lucky we might see the end of the world completely
And if we do, then I hope that it's you waiting there to meet me

Collect all your things 'cause it's hometime
Come on, collect all your things 'cause it's hometime

Collect all your things 'cause it's hometime
Come on, collect all your things 'cause it's hometime

Kandi

You've been my queen for longer than you know
My love for you has been Every step I take, every day I live, everything I see

And if I get things wrong
Don't want you to think that I'm running away
But I heard from Jo about this guy and I want to know

What did he say?
He called me baby, baby, all night long
What did he do?
He called me baby, baby, all night long

Why? Why? Why did you need him? Where was I?
Just how close to you is he?
Every smile you gave, every touch you made, every word you said

And it hurts beyond hurt
It was a love that blinds and a love that stings
When I heard from Jo about this guy and I want to know

What did he say?
He called me baby, baby, all night long
What did he do?
He called me baby, baby, all night long

What did he say?
He called me baby, baby, all night long

Does my love ever touch you?
Does my love ever reach you?
It's never enough, ah, is it never enough?

He called me baby, baby, all night long
What did he do?
He called me baby, baby, all night long

What did he say?
He called me baby, baby, all night long
What did he do?
He called me baby, baby, all night long

I know he called you, baby, baby, all night long
I know he called you, baby, baby, all night long

Simple Day

Let me tell you about a simple day
in my own way i woke up at 6 today
put on the coffee machine
i always dreamed of being a millionaire
without a care in the world because i'm
loosing my hair

dressing up like a model in the shop window
even though i know i got it wrong and it don't
go
you get to work to find that your boss in a
mood
man what makes him think that he can be so
rude

forgot to wash your face and your head
aches too
people are staring as they pass you by ay ay
let it go don't show that you're a single man
and not a day goes by without a porno mag

god damn if i had only stayed at home today
i'll be fine to live the rest of my life this way

just a simple day (sometimes i don't know
why we're living)
just a simple day (these times when
everything's slow)
just a simple day (sometimes i don't know
why we're living)
just a simple day (these times)

let me tell you about a simple day
in my own way fined for jaywalking
while i was talking to the traffic man
who's on commission man
he said thats what i do to put my kids through
school

so my apologies, enjoy your day
who's he to say that when taking my money
away

think man if i had only stayed at home today
i'll be fine to live the rest of my life this way

just a simple day (sometimes i don't know
why we're living)
just a simple day (these times when
everything's slow)
just a simple day (sometimes i don't know
why we're living)
just a simple day (these times)

just a simple day (sometimes i don't know
why we're living)
just a simple day (these times when
everything's slow)
just a simple day (sometimes i don't know
why we're living)
just a simple day (these times)

Slip

Slip off my skin, fall into bed
I'm staying in with you here inside my
head
Mail me a smile, phone me a kiss
I'm in a dream, get me outta this
And of all the creatures under the sky
There is you and I, you and I, you and I,
you and I

And it's all too much, you're in every little
thing I touch
And it's all too real, you're in every little
thing I feel
And it's all such a waste, you're in every
little thing I taste
Come on, come on, come on, come on, be
strong

Think of a time, you name the place
I'll close my eyes and I'm with you, we're
face to face
I see your smile, I feel your kiss
I'm in a dream, get me outta this

And the only thing that I've never tried
Is leaving you and suicide
And of all the creatures under the sky
There is you and I, you and I, you and I,
you and I

And it's all too much, you're in every little
thing I touch
And it's all too real, you're in every little
thing I feel
And it's all such a waste, you're in every
little thing I taste
Come on, come on, come on, come on be
strong
Just let us, let us, let us be strong

Never too much, never too late
Never turn away, never say die
Never let it slip away

Never too much, never too late
Never say die, never say never
Never, never, never, never

Never too much, never too late
Never turn away, never say die
Never let it slip away

Never too much, never too late
Never say die, never say never
Never, never, never, never

Never too much, never too late
Never turn away, never say die
Never let it slip away

Never too much, never too late
Never say die, never say never
Never, never, never, never

Never too much, never too late
Never turn away, never say die
Never let it slip away
Never let it slip away

UFO

I look like a UFO
Standing in the rain
And it feels like I'm going down
am I still the same
gonna be a game
beat until I'm black and blue
can't get up again
and it feels like I'm going down
going down

CHORUS

if I'm such a super hero,
why does it feel like my feet can't leave
the ground
if I was a steam train flying
why would you stand in my way to slow
me down
slow me down
my bills are over-do again
don't know who's to blame
and I feel like skipping town
slowing down
no no no no no no x2

REPEAT CHORUS

la la la x11
(MORE la la las!)
slow me down x18
